SUMMARY

As a senior software developer who believes his organizational skills, abstraction, and out-of-the-box thinking are his strengths, I have taken various professional roles in the IT field since 2015.

I have started my career as a Software Specialist and continued with many duties such as Software Developer, Technical Team Leader, and Consultant. In years, I had gained experience in multiple product groups and sectors, no matter how they are located and distributed.

Currently, I am working for a consultant software developer on a company named "Yapı Kredi Teknoloji" which is part of Koç Holding Group of Companies, which is on the Fortune 500 list.
